Comp2151 Agile Software Development

Group Project Sprint-1

Due date: Friday Nov 16, 2018

Submission: One member from each group will submit **online through blackboard** (One file MS Word or Pdf)

** Please follow the templates/links provided for each artifact:

1. Create a project vision and project charter document(s)

   - https://www.joelonsoftware.com/2002/05/09/product-vision/

   - https://www.projectmanagementdocs.com/template/agile-templates/agile-team-charter/#axzz5ShmjWA00

2. Create one user persona for each category of user.

3. Create user stories.

4. Estimate story priority and story point for each story.

5. Create prioritized product backlog.

6. Create an **Implementation plan** consisting of comprehensive task list for your entire project, assign durations and resources to each task (Use MS Project). [Lab4]
